

Second-International Symposium on Euthanasia and Assisted Suicide:

There will never be a more important time to stop assisted suicide!

The promotion information for the Second-International Symposium on Euthanasia and Assisted Suicide states that registrations need to be in by April 25. The registration cut-off date has been extended until May 11. In the past week we have had an incredible number of registrations that have arrived. We will have an incredible Symposium, but more groups and individuals are needed to ensure a successful outcome.

The **Second-International Symposium on Euthanasia and Assisted Suicide** is at the National Conference Center on May 29 – 30, 2009 (near the Washington Dulles airport) and is possibly the most important conference ever on assisted suicide.

Consider the context:

* Assisted suicide has been promoted by the euthanasia lobby for many years. The pressure to legalize assisted suicide has never been greater than now.

Last November, Washington State legalized assisted suicide through a referendum vote making it the second state, after Oregon, to legalize assisted suicide.

Last December, a Judge in Montana imposed assisted suicide upon that state by judicial fiat making Montana the third state to allow the direct and intentional killing of its citizens. That decision is being appealed

Last year Luxembourg legalized euthanasia.

This Spring, the euthanasia lobby introduced legislation to legalize assisted suicide in Hawaii, New Hampshire, Connecticut, New Mexico, Massachusetts, Pennsylvania and Vermont.

We can turn back the tide.

We need the support of groups and individuals, who will join in a unified and strategic opposition to assisted suicide.

Every group in the US, Canada, and the UK that specifically focuses on the issue are sponsoring the **Second-International**

Symposium. <http://www.euthanasiaprevention.on.ca/2ndIntlSymposium/index.html>

The **Second-International Symposium** offers the best speakers, ever assembled, on the topic. <http://www.euthanasiaprevention.on.ca/2ndIntlSymposium/Symposium.htm>

The **Second-International Symposium** will offer the most up-to-date information on assisted suicide. It will provide a strategic focus to guide us in a unified

direction. <http://www.euthanasiaprevention.on.ca/2ndIntlSymposium/ProposedSchedule.pdf>

We need your support.
